Press Release

Police Surveillance Increases for Dr. Biscet

The Revolutionary National Police has opened a “control and follow-up” file to monitor Dr. Oscar Elias Biscet. On July 5, 2011, the Aguilera Police Station located in Lawton opened a police file that Dr. Biscet will have to sign each month while he is on furlough from prison.

This police surveillance practice forced upon citizens that are in the current political process which includes Dr. Biscet, breaks the Church and State agreement for the liberation of the prisoners of the Black Spring of 2003.

Dr. Angel Garrido

Executive Vice-President
