

Department of State of the USA, Cuba affairs.

Dear friends, receive a cordial greeting, excuse myself in advance. Yesterday, we were able to speak with my husband by phone and to give him the good news about the award "The Presidential Medal of Freedom" y everything related to it. We are both very happy with this recognition, since we both share the same ideals and principles. It is important to let you know that the authorized person by Oscar to receive this honorable award is my son Yan, who is a step son of Oscar, and who represents Oscar together with Dr. Angel Garrido. The will of Oscar is that this medal be deposited by Yan in the Lawton Foundation offices until there is freedom in Cuba, this decision is the fairest that we have made, since he considers Yan as his son and was raised by him since very young age, and besides that Yan has won this right with his dignity and his conduct (Oscar answered). Yan besides sharing our ideals, has kept himself busy with Oscar's situation in every sense. He has also maintained next to our friends if Lawton Foundation of Human Rights, whose vice-president is Dr, Angel Garrido. Yan is a living testimony of the victims of communism, as well as us. Yan had invited Winnie to the act of premiacion and to be there together that day. Oscar was happy that Winnie who is his other daughter, be there with Yan and enjoy that moment too. I also wish to express, that Oscar told me that he dedicates this medal to the people of Cuba and to all the victims of communism of the world. Thanking in advance the matter to deal with, hugs to everyone and God bless you.

*Sincerely,
Elsa Morejon Hernandez
Wife of Dr. Oscar Elías Biscet Gonzalez
Prisoner of conscience in Cuba
Oct. 31-2007*
