- 10-My beloved Cuban People

On behalf of Dr Oscar Elias Biscet it is my distinct honor to accept the doctor Rainier – Hildebrandt Medal for Non Violent Commitment Human Rights. Dr Oscar Elias Biscet is humbled in accepting this award and expresses his gratitude to the honorable members of de jury.

In receiving this award, Dr Biscet understands his responsibility and commitment for the liberation of all Cuban political prisoners and his vision for a free and democratic Cuba.

Dr. Biscet's vision for freedom and democracy for Cuba parallels that of other free and democratic nations world wide: where the inalienable rights of all people are respected, where human rights are a the fundamental pilar for the Cuban nation, where multi party free and democratic elections are held, where free Cubans can work together in a free market economy to rebuild a suffering nation.

Ladies and gentlemen of the free world: Dr. Oscar Elias Biscet, a Christian Physician who uses the bible as his reference book, calls upon all of you to be dissidents for freedom.

Dr. Biscet asks of each of you to demand the liberation of all Cuban Political Prisoners and to unite internationally to aid the Cuban people in their desire to be free.

Ladies and Gentlemen it is for these reasons that Dr. Oscar Elias Biscet must be free. ***Biscet muss frei sein.***

God bless you and thank you.

Dr. Angel E. Garrido

Vice President

Lawton Foundation for Human Rights.
